

# Assisted Service

Have an expert mechanic watch over you whilst you undertake your own bike servicing and repairs.

MBRS have been overwhelmed by the popularity of this service.

It's a simple idea really... YOU do the work on YOUR OWN bike, but you have an expert mechanic with you to help out or help you on your way—not in a derogatory or condescending way but in a useful, friendly and informative way.

You can use our Tools, our Knowledge and our Experience

We'll ensure that you can get the job done.

Your very own Fully Cytech Qualified mechanic!

If you would like to carry out a repair or service on your own bike but the “What if something goes wrong and I make it even worse” stops you from giving it a go, then here is the perfect solution.

If you think you know how, but just need an expert to confirm you're doing things right!

If you're not sure you have all the right tools, guess what.. We do!

Just book a date and time, we'll arrive with our fully equipped workshop.

We'll help you get set up and prepared, then we'll oversee the work you are doing and offer helpful advice as you go.

We'll step in if we see you doing something wrong and offer advice on the best way to perform a particular task.

## How much does it cost?

**£30 per hour for locations in North Bucks and South Beds**

**To enquire call 07736674410 or email [enquiries@mbrsuk.com](mailto:enquiries@mbrsuk.com)**
